Welcome to JK Home Health Services

Home Health Agency that cares for you! JK Home Health Service commits to your health and wellness at home. Our care programs are designed to address your specific care requirements in accordance to your physician’s recommendations. In terms of quality, we lead all other home health care providers in the different counties of Texas.

How may you obtain services from JK Home Health Service?

Most of the people served by JK Home Health Service are referred to us by physicians, hospitals, public health clinics, and private or public welfare agencies. You may call JK Home Health Service directly to inquire about services. JK Home Health Service will in turn make an initial assessment visit in order to determine eligibility and need for services. The patient will not be treated without first obtaining the physician’s approval for the necessary types of procedure. The agency will act without delay on the verbal order of a physician for care or treatment.

Who can receive care from JK Home Health Service?

JK Home Health Service’s care programs are available to anyone recovering from surgery or illness that require physician-directed nursing, therapy, social and other related services in his or her place of residence, if institutional care is not required and health needs cannot be met on an outpatient basis. Most people who receive home health services are home-bound.

JK Home Health Service serves a large number of older adults due to the special needs of this group. Interested physicians or families should feel free to call for answers to any questions they may have about our services. You may reach our office at (972) 329-3900.

Who qualifies for Medicare Home Health?
Medicare recipients Those who are home-bound (requires considerable and taxing effort to leave home)
Those who require skilled nursing service or physical therapy (as ordered by physician)
With well-trained health care professionals, we give you a wide array of home health care services including assistance with daily living activities, rehabilitation support, nursing care, senior care as well as medical social services. About Us

The Agency’s Mission Statement
The mission of JK Home Health Service is to participate as an active part of the community, in providing and continuously improving the home health care needs of the patient by delivering value driven, high quality compassionate care. We employ the best health care professionals to care for you.

Our offered services in home health care are design to fit your exact set of needs at home. To effectively administer the care plan, we assign dependable caregivers, nursing staff, therapists, medical social workers and home health aides to your case. They have all been thoroughly briefed of your home situation and will be able to address your unique care requirements. All employees are licensed, bonded and insured.

We give you comfort and peace of mind like a family member would care for you personally. Non-Discrimination Policy

JK Home Health Service does not discriminate: in admissions or treatment on the basis of race, color or national origin admissions, access to, or treatment on the basis of disability on the basis of age in the provision of services (except where age is a factor necessary to normal operation or achievement of statutory objectives).

Who We Are

We keep the best people in the team – this is the secret to our success! Our management strongly believes in investing on the ability of the staff to provide quality home health care services. To ensure that we continually provide our clients with top-notch health services, we regularly conduct:

You may call our office today to ask about the availability of our home health care services in your area. Talk to us - (972) 329-3900.

Our Services

JK Home Health Service is a full service home health agency. We bring qualified health care professionals into the home to provide physician ordered services.

Once in the home, our skilled nurses, therapists and home health aides provide necessary education and training to effectively implement the physician’s plan of treatment.

We are able to assist you by offering support at any level of care including:

- Nursing Services
- Physical Therapy
- Occupational Therapy
- Speech Pathology
- Medical Social Work
- Home Health Aide
- Personal Assistant Services

We lead the industry in restoring health and maintaining wellness to the clients we serve in their homes. At all times, we find every possible way to assist you or someone you love. To begin, we identify the best health care approach for them by designing a tailor-fit care plan which outlines the recovery objectives and procedures we will apply.

Everyone in our staff understands that when you search for a home health care agency, it is important to choose one that is committed to providing quality and compassionate care. You will find these characteristics from us. Get started with our services soon by giving us a call at (972) 329-3900 or sending us a message.
